Men of Louisiana Cartooned.

Beginning Monday afternoon, the Item will publish daily a new feature which will interest the business men of New Orleans. The feature is an original and novel one in the South, and will carry amusement into commercial circles, promising many a hearty laugh among the friends and acquaintances of the prominent gentlemen put before the public in a new light.

These gentlemen will be cartooned—not maliciously, but facetiously, and with such consummate skill that their importance as commercial factors will be demonstrated humorously, but pointedly. Every city has what people call “magnates.” These men are always found in the front ranks of progress. They are what Tom Lawson calls Henry H. Rogers of Standard Oil fame —“piston rods” of commerce. New Orleans is not lacking in this class of pushers, and their motto is always “Onward—Never Backward.” The Item’s daily cartoons will picture in characteristic style cotton factors, bankers, transportation officials, brokers, merchants and semi-public and men otherwise in the public eye. These men are not breaking into the limelight because they are notoriety-seekers, but the Item will introduce them day by day, because they have done and are still doing something for the upbuilding of the whole New South.

Item readers can not afford to miss this forthcoming series of cartoons, depicting uniquely men of everyday affairs. The cartoonist has studied his subjects and will bring out their salient points, characteristically expressed in pen strokes. Our readers will enjoy the rare treat which is coming, therefore they will do well to purchase scrapbooks and file away the Item’s cartooned men.

These lively sketches will appear on the editorial page. The men selected are types of activity in various lines, and are examples of the old, old tale, the “survival of the fittest.”

Editorial N. O. Item, Jan. 20, 1906.

ALBERT GODCHAUX.
